

Installation and Commissioning Coordinator

LINCO Food Systems is currently looking for an enthusiastic and dedicated Coordinator to join the Installation and Commissioning group to assist with the daily workings of the department.

The job

Within this position, you will have the opportunity to gain an in-depth knowledge into all business aspects of LINCO Food Systems, not only working with the team in Denmark but also within the international market. This position will involve worldwide travel when required to support the installation and commissioning teams on customer sites but also to ensure a close relationship is kept within the international LINCO Food Systems' Installation and Commissioning group. You can expect up to 50 days of travel.

As Installation and Commissioning Coordinator, you will in close collaboration with the department manager be responsible for the co-ordination of department procedures, ensuring all departments within the necessary business groups are co-ordinated and aligned, allowing a smooth and efficient transition from sales engineering to projects and final customer delivery. The key element of this role is to ensure the installation and commission team have all relevant information to fulfil our customers' requirements. Alongside the co-ordination of procedures manpower planning will be a large part of your day to day task.

Your main tasks will be:

- Execute department process flows and procedures
- Align cross function applications and knowledge to strengthen global business units
- Communicate and present departmental instructions and requirements to all levels of the organisation
- Control Microsoft project planning
- Update, improve and strengthen procedures and structure to accommodate internal, market and customer requirements
- Co-ordinate travel plans for Installation and commissioning tasks
- Management and co-ordination of Installation and commissioning equipment
- Continual support and assistance to project installation and commissioning supervisors

Professional competences:

- Technically minded
- Experience in Microsoft office packages (Microsoft project preferable)
- SAP experience is an advantage
- Presentational skills and experience
- Strong communication skills in English, orally and in writing (the Group language is English)

As a person you are characterized by:

- Strong organisational and structural skills with a mind-set that encourages you always to want improvements
- Outgoing and a good communicator who can communicate on all levels in the organisation
- Dedicated and hard working
- Customer focused

- Solution driven
- Honest and reliable

We offer

An exciting and challenging position with independent responsibilities and great potential for contributions towards the future solutions. You will very much be able to develop your professional and personal skills in a busy day. The salary will be negotiated individually to match your qualifications and includes pension scheme, health insurance, and opportunity of flexible working hours, an attractive canteen, massage, well-functioning staff and art associations; and last but not least, you will get committed and skilled colleagues.

Application

We handle applications as we receive them and close the recruitment as soon as we have the right profile. If you are interested in the position, we therefore encourage you to upload your CV and motivated application using [Quick Apply](#) as soon as possible.

If you have any questions, please do not hesitate to contact Global Project Installation & Commissioning Manager, Harry Otter on +44 793 089 3330 or harry.otter@baader.com.

We look forward to hearing from you.
