

Mechanical Engineer

We are currently looking for a talented Mechanical Development Engineer to join our team in Trige.

The Job

With reference to our Technical Business Manager, you will become a central part of our Development and Engineering department in Trige.

You will be responsible for the design, development and testing of mechanical components and equipment.

Some of Your Primary Focus Areas will be:

- / Generating complete machine assembly drawings and detailed components
- / Performing engineering design calculations and participate in product design decisions
- / Creating and maintaining design documentation
- / Analysing existing products and investigate improvements
- / Providing technical guidance to drafters to develop detailed drawings
- / Participating in design projects including new product development, customized products, existing product maintenance, quality improvement, and cost reduction
- / Working closely with mechanical, electrical, and software engineers

We will emphasize the following professional qualifications:

You hold a Bachelor's degree in mechanical engineering combined with at least 5 years of relevant work experience. We will also emphasize the following qualifications:

- / Experience with Solid Works 3D/2D design tool is required
- / Knowledge in MS Office
- / Experience with ERP Systems (preferably SAP)
- / Design knowledge of machined and fabricated parts
- / Design knowledge and experience with conveyors, actuators, gear motors, pumps etc.
- / Process knowledge from the Poultry industry or other relevant food industries

Personal qualifications:

- / You are structured and committed
- / You have the ability to work effectively under pressure and good flexibility to meet demand in the role
- / You have a positive, open, energetic and involving personality

- / You possess good interpersonal skills and you are capable of contributing with your expert knowledge in various contexts
- / You have a natural flair for working with a high personal drive and energy
- / Analytical skills and "hands-on" attitude
- / High degree of personal planning and able to meet deadlines
- / Creativity and team spirit
- / Good communication skills and fluent in English - both verbal and written (the group language is English)

We offer

An exciting and challenging position with independent responsibilities and great potential for contributions towards future solutions. You will very much be able to develop your professional and personal skills in a busy day. The salary will be negotiated individually to match your qualifications and includes pension scheme, health insurance, and opportunity of flexible working hours, an attractive canteen, massage, well-functioning staff and art associations; and last, but not least, you will get committed and skilled colleagues.

You can expect between 10-30 travel days per year.

Further information and application

We handle applications as we receive them and close the recruitment as soon as we have the right profile. If you are interested in the position, we therefore encourage you to upload your CV and motivated application (In English) to HR-DK@baader.com.

If you have any questions, please do not hesitate to contact Director of Development & Engineering, Ole Ryom on +45 2260 1410.

We look forward to hearing from you.
