

Purchasing Manager

Would you like to work with management and strategical and operational procurement of technical products in an international project company? Would you like to take part in raising the bar in a busy purchasing department with many tasks? In that case, we look forward to receiving your application.

The Job

As Purchasing Manager, you will have the overall responsibility for LINCO Food Systems B.V.' purchasing function in Doesburg, where you will manage one skilled employee. You will become a key player in the company's growth and further development. As you will have an extremely close co-operation with the company's other departments, you will juggle with many specially produced purchases within e.g. stainless steel, motors, gears as well as electrical parts etc.

Your primary task will be to develop an efficient machinery space ensuring that LINCO Food Systems B.V always has the right goods, in the right quantities in the right place – a crucial factor in a business with very high customer dependence on supply.

Reporting to the Managing Director, you will have a busy and many-sided working day, as you will participate in both operational procurement tasks as well as being an active player in the further strategic development of the global matrix purchasing organization. You should expect 20-30 annual travel days, primarily visiting suppliers in The Netherlands and the rest of Europe and the BAADER headquarter in Lübeck. The visits will mainly be short and you will have influence on scheduling the trips.

More specifically your tasks will be:

- / Contract negotiations
- / Manage cross functional supplier-change and cost-reduction projects
- / Reporting and improvement of internal and external KPI in close collaboration with the business controller
- / Lead buyer for specific commodities on corporate level
- / Inventory and lead time optimization in close collaboration with business controller
- / Close dialogue with the Danish and the Dutch production units, including internal group trade
- / Motivation, involvement and management of the skilled employee
- / Driving a close co-operation with the Engineering Department with a view to purchasing optimisation
- / Overall responsibility for purchasing via the MRP run for production, follow-up on suppliers, creation and Maintenance of master data in SAP
- / Process optimisation of the work procedures in the department

Professional and personal qualifications:

- / You possess solid technical knowledge combined with a business education or experience
- / You have impact when negotiating with suppliers and colleagues and you hold the necessary legal knowledge to draw up contracts
- / Preferable, you have experience with purchasing from a company with an engineering department and have work experience from a global network
- / Preferable knowledge of SAP, however, the most important is that you have experience with production management systems
- / You are a skilled manager who understands how to involve, motivate and create a shared take-off in the department
- / You are analytical and have a business-oriented approach
- / You are motivated by creating results every day
- / You are a strong team player with a hands-on mentality
- / You speak and write Dutch and English on a high level
- / Experience with NEVI2

The Company offers

An exciting and challenging position with independent responsibilities and great potential for contributions to “the team”. Good colleagues, a developing organisation, pension scheme, discount on health insurance.

Application

We handle applications as we receive them and close the recruitment as soon as we have the right profile. If you are interested in the position, we therefore encourage you to send your CV and motivated application (In English) to hr-nl@baader.com.

If you have any questions, please do not hesitate to contact Wiebe de Haan, on +31 631 77 96 97.

We look forward to hearing from you.

About the Company

LINCO Food Systems B.V is part of the BAADER Group, one of the world’s leading manufacturers of process equipment for the food industry with more than 1100 employees worldwide. The BAADER Group designs and develops innovative and holistic solutions ensuring intelligent, safe, effective and sustainable food processing in all phases from handling of natural resources to finished food.
